We will pickup from anywhere in the south west and will drop off anywhere in the UK

All other pricing is either done locally on the meter or if booked in advance or asked before the journey starts can be done at a quoted rate based on distance

As a small company based in Somerset we know the importance of making sure that the customer is happy with the service, it is something that we will always remember as we grow. That is why we go the extra mile for all fares no matter how big or small they are and this starts from the booking right the way through to the collection and drop off.

All jobs booked in advance are approached in the same way to ensure that there is a consistent level of service. We always make sure that we leave early to get to the collection point before or on the time the taxi is booked. We will then wait till the collection time and then come in or to the door to inform you that we are here, rather than waiting in the car for you to come to us. After the journey is started we will take the most direct route to the destination rather than going all the back roads to make the journey longer... After all we are too busy to spend more time than needed on one journey!!!
